HI WAY SURPRISE—Weston Surprise 11th x has made many friends. He is long, big, and possesses a large amount of natural muscle. Hi Way Surprise was first place junior calf at the North Dakota Winter Show where he and the other Surprise 11th x calves created a lot of enthusiasm. We think you'll find him, as we have, to be a very long, good, meaty bull, that is right on his legs.

GOLDEN VALLEY CORONET 3rd—Is the pick of our 2 year old bulls by the N. D. Polled Congress selection committee. Feb. 12, 1974 weight 695 lbs. on silage and hay, no creep feed during summer. 1975 winter ration is wheat screening, hay and corn silage. Weight Dec. 8, 1974, 1260 lbs. His sire weighed 2100 lbs. at 37 months. Lady Dreadnaught 36th weighed 1375 lbs. in her prime, was an extremely wide rumped cow that was absent of any patchiness over the pins. Golden Valley Maid 7th x is one of the larger daughters of Kickapoo Ballad. Ballad daughters have very good udders and are very good footed cattle. No foot trimming because of their high heel. Ballad lived to the age of thirteen. Golden Valley Maid 4th is a very long angular female that produced her last calf at the age of 16.

NELCO MARCUS—This son of Nelco Crown Leader x (Oswald) has the potential to be as good a bull as we have ever raised. We could write pages on his dam, **Kenmar Minnie 4th**. She was probably one of the top cows the Shorthorn breed has ever known. She is the dam of Kenmar Max 21Y, who has done such an outstanding job for Glen Vergeront of Montana, and Kenmar Max 23A for Lloyd Hatch of Manitoba, just to name two. One thing a breed improving bull must have is an outstanding dam, this one has.

TYLER FARM'S SIR LOIN 27th—He is only 1½ years old and we have 30 head bred to him. He's a hard working young bull and comes to the sale as a proven sire in breeding condition, right off pasture. He will be breeding females right up to sale date, so don't expect to see a show bull. This pre-potent sire can help any herd. His dam will mature out at over 1700 lbs. His first calves are already here and they look great. We sold his sire at two years of age for \$5000 for two-thirds interest. This bull comes with registry certificates of Polled Shorthorn, Polled Durham and Polled Milking Shorthorn. Resulting calves can be registered in any of these three herd books the dam is listed in.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers, sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial, for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
